

Equine · 10 Billion Probiotics

WHAT IS IT?

A unique combination of **pre- and probiotics** specifically formulated for horses and ponies.

Each serving provides 10 billion live beneficial microorganisms that **help restore and maintain healthy intestinal microbial balance**, thus supporting digestive and overall health.

These live microorganisms (**9 different strains**) have proven health benefits and well-established safety, and have been tested for epithelial cell adhesion and resistance to low pH.

WHEN USE IT?

The Equine formula is ideal for **foals, broodmares** and **all horses** exposed to **stress** or prone to **digestive upsets**.

+ BROODMARES:

Bacterial infections in the reproductive tracts of mares are one of the leading causes of infertility. Probiotics have been shown to be a safe alternative to antibiotics in **helping prevent and treat urological infections**.

Poor colostrum quality remains the primary cause of poor immunity in foals and exposure to life-threatening infections. Probiotic supplementation can **improve the quality of the mare's colostrum** by increasing its antibody concentration. Probiotics should be introduced no later than at the beginning of the last trimester.

+ FOALS:

Early administration of probiotics promotes the establishment of commensal bacteria, **preventing pathogen colonization of the gastrointestinal tract**.

Feeding probiotics from birth may also improve growth by **optimizing feed conversion** and **decreasing the incidence of diarrhoea**.

+ DIGESTIVE UPSETS:

Gas
Bloating
Colic

Diarrhoea / Scouring
Loose and/or stinky stools
Constipation

+ STRESSFUL SITUATIONS:

Environmental changes
Transportation
Intensive trainings

Competitive activities
Changes in diet
Weaning

+ RECOVERY PERIODS:

Antibiotic therapies
Chemical de-wormings
Drug treatments

Vaccines
Surgeries
Injuries

NUTRITION FACTS

Serving Size: 1 Scoop
Servings per Container: 65

Amount Per Serving

	Amount Per Serving
Lactobacillus plantarum R1012	5 Billion CFU
Lactobacillus rhamnosus R0011	1.5 Billion CFU
Bifidobacterium longum R0175	0.5 Billion CFU
Lactobacillus acidophilus R0418	0.5 Billion CFU
Lactobacillus casei R0215	0.5 Billion CFU
Lactobacillus helveticus R0052	0.5 Billion CFU
Lactobacillus paracasei R0422	0.5 Billion CFU
Lactobacillus rhamnosus R1039	0.5 Billion CFU
Bifidobacterium animalis Ssp lactis R0421	0.5 Billion CFU
Total guaranteed:	10 Billion CFU

INGREDIENTS: Chicory inulin (prebiotic), NON-GMO maltodextrin, natural plum powder, ascorbic acid, magnesium stearate.

DOES NOT CONTAIN: Dairy, wheat, gluten, fish, shellfish, peanuts, tree nuts, egg, ingredients derived from genetically modified organisms (GMO), hormones, antibiotic traces, pesticides or heavy metals.

RECOMMENDED USE:

Use daily for general wellbeing. Adjust dosage and frequency as needed or as recommended by your veterinarian.

Sprinkle on food. 1-2 scoops, 1-2 times daily. (Add to feed before serving).

STORAGE:

Keep closed in a cool, dry place.
No refrigeration required.
